

# Summer School 2027

Where young  
minds shine.

M|P|W

Our Summer School offers students more. More knowledge through a high-quality academic programme. More skills for life through innovative classes, and lectures from leading university academics. And more fun, with a packed schedule of social and cultural activities which allows them to experience the very best of British culture.

Media Literacy

Breakthrough Thinking:  
Advanced Problem Solving

"If you're interested in having a new experience and learning more about a topic you're interested in, whilst being with other people from around the world and doing fun activities, this course is perfect!"

Nicolas, from Spain | **Summer School**

"You're learning things that interest you because you get to study the subjects you enjoy. You can also develop skills through My Path; My Way. At the same time, you have fun. For me, it was a really cool experience because of that."

Juliette, from France and Germany | **Summer School**

"I loved the lessons and the teachers. We talked about a lot of different things, like Economics and Finance. I thought they were the same but now I know they are different. You'll find out if you really want to continue with the subject you are interested in."

Kajus, from Lithuania | **Summer School**
